

Reflections within a Financial Mirror

‘Let me show you a mirror and a reflection, let me show you the Sacred and the Satanic, let me show you the moment when your life is given to you as a Gift, and the moment when your life is stolen, Forever!’

The perplexing financial question ‘who supplies the capital for our loans, when the world is drowning in debt?’ reveals that banks do not loan bank capital, banks loan bank credit created by monetising their customer’s assets within a banking mirror called double-entry bookkeeping, a banking mirror which allows aristocracies and empires to seize our world with debt!

The banks, deceptively, call the reflection of their customer’s own assets within the mirror ‘bank capital’, funds which the banks can now deposit into the customer’s account within the form of a loan. The banks then gather together at the end of each banking day, in a demonstration of cartel behaviour, and tally their accounts, making additional loans to balance their books, with the monetary supply now appearing from nothing in the form of reflections within a mirror.

Customer assets have preceded the appearance of bank capital!

In this monetary system there is a moment of banking power, the moment when the world is turned from light into darkness, turned from assets into debts, turned from the Sacred into the Satanic! The customer supplies the assets for the loan so it is morally reasonable for the loan to be recorded as an asset to the customer, with a \$1 loan bearing 0% annual compound interest, calculated daily, over 550 years, creating a debt of \$1. However, the banks record the loan as an asset to the bank, with a \$1 loan at 6% annual compound interest, calculated daily, over 550 years, creating a debt of 214 trillion dollars! The banks consider these 214 trillion dollars to be a modest return upon a reflection within a mirror! Who needs the ancient laws, forbidding interest from exceeding loan capital! This system of usury steals 75% of the peoples’ daily income through the imposition of the four financial demons, those of debt, interest, taxation and inflation. ‘The goose is plucked with the minimum of squawking’!

The banks, of course, do not admit that they are loaning reflections of their customer’s own assets as not even a ‘Shakespearean idiot’ will pay compound interest upon a loan created as a reflection of the idiot’s own assets! Instead, the banks tell their customers that they are receiving valuable ‘pre-existing’ bank capital upon which interest must be paid. This deception is a crime against the laws for fraud, fiduciary duty, odious debt, racketeering, pyramid schemes, duress, cartels, and contracts. In a court of law, as fraud invalidates all contracts, all customer loans could be deemed void and the banks forced to return the capital and interest paid by their customers, plus a three times cartel penalty! A student with a \$100,000 loan has their loan cancelled and \$300,000 deposited into their bank account. A family with a \$300,000 mortgage has their loan cancelled and \$900,000 deposited into their bank account. The world has moved from the Satanic realm of debts into the Sacred realm of assets. At the very least, our customer loans should be re-engineered and recorded as interest-free assets, now owned by the bank’s customers, with all interest payments returned to the customers!

When are the people going to awaken to this simple solution to the debt matrix and the banking fraud which we call our ‘financial system’? When will the people realise that there are two million species upon our planet and humanity is the only species which is terrorised by the four financial demons, those of debt, interest, taxation, and inflation! When will the people realise that it is possible to create our nation’s monetary supply as an asset and not as a debt? The greatest treasure in our nation is the monetary supply so by what art of dark financial magic have we managed to convert this asset into a debt owed to the private bankers? Have we been drinking from the dark waters of the insane and the sociopathic? Are we so stupefied by the lies of usury that we deserve to be swindled?

Send these texts to all you know, consider their implications within your forums and your ‘coffee shop’ discussions. These financial concepts should be discussed in your national media and your political institutions, they should be debated within the ‘slave plantations’ which you call ‘life’. The people need to awaken from their prisons of debt peonage, the people need to return the creation of the monetary supply to the nation, to the realm of ‘The Light, the Asset and the Sacred’!

Historical Banking Quotes

Robert Anderson, Treasury Secretary under Eisenhower

'When a bank makes a loan, it simply adds to the borrower's deposit account in the bank by the amount of the loan. The money is not taken from anyone else's deposits; it was not previously paid in to the bank by anyone. It's new money, created by the bank for the use of the borrower'.

The Director of the Bank of England,
Sir Josiah Stamp, 1927.

'The modern banking system manufactures money out of nothing. The process is perhaps the most astonishing piece of sleight of hand that was ever invented... Bankers own the earth. Take it away from them but leave them the power to create money, and, with a stroke of a pen, they will create enough money to buy it back again...but if you want to continue to be the slaves of the bankers and pay the cost of your own slavery, then let bankers continue to create money and control credit'.

Professor Irving Fisher, Yale University,
in his book '100% Money'.

'If two parties, instead of being a bank and an individual, were an individual and an individual, they could not inflate the circulating medium by a loan transaction, for the simple reason that the lender could not lend what he didn't have, as banks can do. Only commercial banks and trust companies can lend money that they manufacture by lending it'.

The Bank of England Quarterly Bulletin, 2014.

'Whenever a bank makes a loan, it simultaneously creates a matching deposit in the borrower's bank account, thereby creating new money'.

James Madison,
fourth president of the United States.

'History records that the Money Changers have used every form of abuse, intrigue, deceit and violent means possible to maintain their control over governments by controlling money and its issuance'.

Mackenzie King,
Canadian Prime Minister 1935-1948.

'Once a nation parts with the control of its currency and credit, it matters not who makes the nation's laws. ... Until the control of the issue of currency and credit is restored to government and recognized as its most sacred responsibility, all talk of the sovereignty of parliament and of democracy is idle and futile'.

US President John Adams.

'There are two ways to conquer and enslave a nation. One is by the sword. The other is by debt'.

Henry Ford

'It is well enough that people of the nation do not understand our banking and monetary system, for if they did, I believe there would be a revolution before tomorrow morning'.

Ralph Hawtry, former Secretary of the Treasury.

'Banks lend by creating credit. They create the means of payment out of nothing'.

The creation of the monetary supply as debts bearing compound interest fulfills one of the definitions for Satanism!

Perhaps it is time then for you to investigate your nation's monetary supply?

Perhaps it is time for you to awaken from the financial curse of usury, the plague which has destroyed civilisations and the heart of humanity!
